EXPECTATIONS

The textbook does a good job of explaining the basic marketing principles and concepts as well as introducing you to the vocabulary of the business. I will devote class time to discussing these concepts and how they apply to the marketing operations of a company. We will discuss the application of marketing theory to real life situations drawn from my professional experience. I want you to share your own experiences – or if you have limited work experience, to ask questions. We will have video tapes and class exercises.

My expectation is that you will prepare yourself for each class session by studying the material assigned before coming to class, that you will think about the application of what you are studying to the job of a marketing manager, and that you will discuss your thoughts during class.

Hand in assignments are due at the start of the class. Hand in assignments are to have your name as it appears on your school record, your ID number, and the name of the assignment you are turning in.

Americans consider time differently than people from other countries. Americans actually think of time as a tangible asset. We say “Don’t waste time.” We talk about saving time. Because of this it is considered rude and is unacceptable to be late for a business meeting. The same applies to classes. We will conduct this class with the same respect for time. If you are late for class, wait until the break to enter.

Cell phone use is not permitted in the classroom. Use of a computer in the classroom requires the explicit permission of the instructor. Notes, electronic dictionaries, or any method of obtaining information is not permitted during exams.

Students are expected to understand the course requirements as defined in this syllabus. The professor reserves the right to modify the syllabus.
