CATALOG DESCRIPTION

Students are expected to develop a better understanding of business strategy approaches and techniques, and to acquire skills and knowledge relating to the decision-making process. Emphasis is on decision-making while still recognizing the importance of the specialized functions of an organization. Readings and case materials are reinforced with participation through written tests, papers, and oral presentations. This is the MBA program capstone course. (3 units)

Prerequisites: BA 301, BA 304, BA 307, BA 320, BA 340, and at least two concentration courses.

COURSE OBJECTIVES

The course objectives are to introduce students to the basic aspects of modern business strategies, the appropriate analysis methodologies, risk assessment, business decisions, business decision-making process, methodologies, and its automation.

PROCEDURES AND METHODOLOGY

Lecture method is used in combination with supervised exercises and business case study. The emphasis will be on learning by doing. Every student must participate in an intensive classroom activity, must complete home tasks and course projects, and take quizzes and exams.

COURSE PROJECT

Every student must complete and submit a business plan

REQUIREMENTS

Continuous assessment is emphasized. Written or oral quizzes will be given every week. Reading, writing, home tasks, and “business case study” assignments will be made throughout the course. Students must complete all assignments and take all quizzes, mid-term exam and final exam on the **dates due**. Plagiarism will result in the grade “F” and a report to the administration.

ATTENDANCE

Students are expected to attend each class session. If you cannot attend a class due to a valid reason, please notify the instructor prior to the class.

EXAMS

Both, midterm and final exams are structured as written essay to answer the given questions. Each exam includes six questions. The essay must be written clearly and easy to read, structurally with clear logical presentation of the answers. Graphs, charts, tables, and other supporting illustrations are required if needed. Examples to illustrate the answers are required. Exams will cover all assigned chapters, any additional readings or supplementary materials covered in class. The final exam is comprehensive, i.e. includes the whole course. The exams are neither “open book” nor “open notes.”

GRADING AND SCORING

All activities will be graded according to the points as shown below.

Grade	A	A-	B+	B	B-	C+	C	C-	D+	D	F
Points	94-100	90-93	87-89	83-86	80-82	77-79	73-76	70-72	67-69	60-66	0-59

In exams, every answer is graded by points from 0 to 100 and the total points for an exam are calculated as the average of the points received for all answers in the exam.

The final grade for the course will be given as the total weighted score for all activities according to the percentage shown in the table below.

Activity	Time	Percent
Quizzes, home tasks, and classroom activities	Every week	20%
Course project		20%
Mid-term exam	In the middle of the course	30%
Final exam	Last week of the course	30%

If both grades for the midterm and final exams are “F” the term grade for the course is “F” regardless of the grades for the project and classroom activities.
