

Lincoln University
Introduction to Humanities (HUM 10) Fall 2017
Prof. Eric Bergerud rickt2@prodigy.net
3 Units (45 hours of lecture) Tuesday 12:30-3:15

COURSE DESCRIPTION: This course charts the development of Western culture from the Renaissance (approximately 1500 A.D.) to the present. We will look at the visual arts and music as representative of basic cultural change, and will examine the changes in Western thought: the development of scientific method, changing views of physical reality, and the redefinition of social justice. Lastly we will consider the possibility that a "world culture" is developing in the post-industrial world.

PURPOSE: To understand the world's present it is necessary to understand its cultural foundations. This is more true than ever at present because of the growing connections between once distant cultures. A basic knowledge of what is becoming, at some level at least, a part of a world culture will prepare students to act and think in today's global society. In addition, this course, in common with all courses in the humanities and social sciences, will help the students improve their analytical skills. Also, because the lectures and the exams essays are very important, students will improve their English language skills.

SCOPE: This course concentrates on the development of Western Civilization because of the impact it has had worldwide. We shall, however, use many comparative examples from other cultural traditions to illustrate important points. Throughout the course, we shall examine the question of what degree it is possible or desirable to create a "world" culture to accompany economic global integration.

STUDENT RESPONSIBILITIES: There are no prerequisites for this class. Attendance is mandatory. Homework for this class are the reading assignments detailed in the schedule as well as shorter topical items sent via the mailing list. Students are urged to complete the appropriate reading assignments before the lectures. Students will give a short oral report on a subject of their choice: we will determine the size of the groups at first meeting. There shall be prep time allowed during class period. It is very important that students be attentive in class and take notes as the lectures will have a different emphasis than the readings. Questions and discussions in class are strongly encouraged. It is very important to have an orderly atmosphere during lectures. Therefore cell phones should be turned off and casual conversation between students is greatly discouraged.

READINGS: The text is *The Humanities* Vol. II (6th Edition) by Mary Ann Witt (ISBN-10: **0618045384**, or ISBN-10: 0669279978). I will show students where to buy an inexpensive used copy of this book. There will also be several copies on reserve in the library. I will distribute shorter readings from contemporary sources that illustrate how cultural developments of the past continue to shape the present world.

FORMAT AND GRADES: This course will be based on a standard lecture format. In addition we shall use employ videos and internet photos to illustrate the visual arts and architecture. This course will be based on a standard lecture format. Questions, comments and discussion are very welcome. The grades will be based on the outcome of one midterm and a final exam. The exams will be essay in nature. The essays will be very broad and I will discuss their scope prior to exams. We shall also discuss the basic techniques of building an orderly argument suitable for the exams. The Standard A-F grades will be given. Approximately 1/3 of the grade is based on the midterm and 2/3 on the final. An excellent oral report will be a positive modifier. I also do take into consideration a favorable trajectory between the midterm and final when deciding the course grade. Bad attendance results in a grade penalty. Grading essays is necessarily subjective but the grades will be put into a numerical format:

Point/Grade Conversion

100-95	A	76-74	C
94-90	A-	73-70	C-
89-87	B+	69-67	D+
86-84	B	66-60	D
83-80	B-	59 or <	F
79-77	C+		

COURSE LEARNING OUTCOMES AND ASSESSMENT:

I. Outcome: Improve Analytic Skills

A. Assessment Activities: In-class examination of source materials – Understand structure, point of view, logical coherence. This exercise is an in-class interactive activity – student responses assessed by instructor.

B. Cooperative Research & Analysis. All students required to participate in Group Oral Report. performance of reporting students and responses to report from class assessed by instructor.

C. Note Taking. Notes needed to record significant points of lectures, videos and other non-textbook materials and make them useful for exams. Exam outcome assessed.

D. Essay Midterm and Final Exams. Thoroughness and quality of student argument assessed by instructor. (Students with analytic/content problems on

midterms, class discussion or oral reports encouraged to seek assistant from appropriate staff.)

II. Outcome: Assimilate Basic Knowledge of Course Material.

A. Assessment Activities. Content of essay exam answers reflect completion of readings and attention to lectures/videos and are Assessed by Instructor.

B. Class discussion and questions posed to clarify issues raised by course materials reflect students' knowledge of course Materials as course develops. Assessed by instructor.

III. Outcome: Improve Communication Skills – Especially for ESL Students.

A. Assessment: Oral reports and class discussion allow assessment of oral language improvement or continued problems.

B. Assessment of essay exams reflects improvement in written language skills or continued problems. (Students with language problems referred to language staff.)

CONTACT BETWEEN INSTRUCTOR AND STUDENTS: I will have office hours between 3:30-4:30 on Tuesday at a room to be arranged. If you would like to arrange a different time for a meeting I will be glad to arrange one. If there are any questions or messages you wish forwarded please email me: I check my messages several times a day and will contact you very promptly. I ask that you use my home email address (rickt2@prodigy.net). My school email is bergerud@lincolnuca.edu but this will be forwarded and it is easier to go direct.

SCHEDULE: Text Chapters Given In [] (**The Humanities** Vol.2 by Mary Witt)

August 22	Introduction: The West [Introduction]
Aug 30	Renaissance/Reformation Europe [21-22]
Sept. 6	Beginnings of Science and Enlightenment [25-26]
Sept. 12	Revolution:Political & Industrial [27]
Sept. 19	Romanticism [28]
Sept. 26	19th Century Realism [29]
Oct. 3	19th Century Science [30] Midterm
Oct. 10	Culture of Imperialism [29]
Oct. 17	The West in 1914 [30]
Oct. 24	“Progress” and Doubt [31]
Oct 31	War and Culture [32]
Nov. 7	New Science and Industry and Society [33]
Nov. 14	New Communication [34]
Nov. 21	Fall Break (Holiday)
Nov 28	World Culture? [35]
December 6	Final Exam

APPENDIX. Program and Institutional Learning Outcomes

Institutional Learning Outcomes (ILOs)	
<i>Graduates of the BA program of Lincoln University should be able to:</i>	
1a	Develop the habits and skills necessary for processing information based on intellectual commitment, and using these skills to guide behavior.
2a	Raise important questions and problems, and formulate them clearly and precisely in oral or written communication
3a	Act with dignity and follow the principles concerning the quality of life of all people, recognizing an obligation to protect fundamental human rights and to respect the diversity of all cultures.
4a	Focus on individual and organizational benefits; communicate to co-workers and company's leadership in facilitation of collaborative environment; to be honest and transparent with regard to their work, and to be respectful of the work of others.
5a	Display sincerity and integrity in all their actions, which should be based on reason and moral principles; to inspire others by showing mental and spiritual endurance
6a	Show creativity by thinking of new and better goals, ideas, and solutions to problems; to be resourceful problem solvers.
7a	Define and explain the boundaries, divisions, styles and practices of the field, and define and properly use the principal terms in the field

Program Level Outcomes (PLOs)	
<i>Students completing General Education courses in BA program will be able to:</i>	
1	Demonstrate proficiency in college-level mathematics, English, sciences, humanities, and social sciences.
2	Represent mathematical information symbolically, visually, numerically, and verbally. Being able to interpret and apply arithmetical, algebraic, and geometric methods to solve problems.
3	Communicate effectively in multiple creative and academic writing genres by applying Standard American English.
4	Think critically and apply common sense in approaching and solving real-world problems.
5	Demonstrate proficiency in skills that sustain lifelong learning, particularly to think critically and responsibly in assessing, evaluating, and integrating information.
6	Understand the responsibilities of active citizenship, community engagement, and social responsibility.

Institutional Learning Outcomes (ILOs)

Graduates of the BS program of Lincoln University should be able to:

1a	Develop the habits and skills necessary for processing information based on intellectual commitment, and using these skills to guide behavior.
2a	Raise important questions and problems, and formulate them clearly and precisely in oral or written communication
3a	Act with dignity and follow the principles concerning the quality of life of all people, recognizing an obligation to protect fundamental human rights and to respect the diversity of all cultures.
4a	Focus on individual and organizational benefits; communicate to co-workers and company's leadership in facilitation of collaborative environment; to be honest and transparent with regard to their work, and to be respectful of the work of others.
5a	Display sincerity and integrity in all their actions, which should be based on reason and moral principles; to inspire others by showing mental and spiritual endurance
6a	Show creativity by thinking of new and better goals, ideas, and solutions to problems; to be resourceful problem solvers.
7a	Define and explain the boundaries, divisions, styles and practices of the field, and define and properly use the principal terms in the field

Program Level Outcomes (PLOs)

Students completing General Education courses in BS program will be able to:

1	Demonstrate proficiency in college-level mathematics, English, sciences, humanities, and social sciences.
2	Being able to interpret and apply arithmetical, algebraic, and statistical methods to solve problems
3	Communicate effectively in diagnostic field by applying Standard American English. Be able to use appropriate terminology accepted in DI field.
4	Think critically and apply common sense in approaching and solving DI and real-world problems.
5	Demonstrate proficiency in skills that sustain lifelong learning, particularly to think critically and responsibly. Be able to evaluate and integrate DI information.
6	Understand the responsibilities of active citizenship, community engagement, and social responsibility.
7	Develop basic understanding of bioethics' standards acceptable in the field of diagnostic imaging.
