### CATALOG DESCRIPTION

The course designed to provide an educational vehicle for understanding small business entrepreneurial thinking and practice. It gives introduction to the process of turning ideas into a successful start-up enterprise. Special emphasis on innovations derived from research and technology development. Students will be exposed to what entrepreneurship takes in a start-up context, and how integrate execution can be successfully utilized in a variety of career and work contexts. There will be a special effort to define key areas which an entrepreneur should be aware of, and to provide a framework of “toolkit” resources relevant to start-up execution. Students draft a business plan related to a business of own interest, using all available tools, techniques, and experience.

### EDUCATIONAL OBJECTIVES

1. To understand the concept of entrepreneurship and start-up ventures.
2. To gain knowledge of planning and organizing the venture.
3. To understand the types of business ownership for small and large enterprises, organizational structures and management function.
4. To discuss the fundamentals of managing the new and small business enterprises.
