Textbook:

Last Revision: August 19, 2022

CATALOG DESCRIPTION

Topics include matrix theory, linear systems, linear programming, probability, decision theory, and game theory. Also applied calculus is covered. (3 units)

Course LO Institutional Program Assessment LO LO Communicate effectively verbally in GELO 2 ILO 1a, 1 Class activities various professional and social contexts. ILO 2a 2 Demonstrate proficiency in college-GELO 3 ILO 1a, Quizzes, level mathematics, be able to represent ILO 2a Homework. mathematical information symbolically, Midterm and visually, and verbally; interpret and Final Exams apply quantitate methods to solve practical problems. 3 Apply critical thinking skills and GELO 5 ILO 1a, Quizzes, common sense to approach and solve ILO 2a, Homework, real-world problems. Demonstrate Midterm and ILO 6a proficiency in skills that sustain lifelong Final Exams learning, particularly to think critically and responsibly in assessing, evaluating, and integrating information.

COURSE LEARNING OUTCOMES¹

INSTRUCTIONAL METHODS

This is a direct classroom instruction course.

Lecture method, where every student must participate in an intensive preparation and classroom activity. The emphasis will be on learning by examples and solving problems. Problem solving assignments will be given throughout the course during the class and as a homework.

Assignments and projects require students to actively use resources of the library. Detailed guide to business *resources of the library* as well as the description of Lincoln University approach to *information literacy* are available at the <u>Center for Teaching and</u> <u>Learning</u> website (ctl.lincolnuca.edu).

ACADEMIC HONESTY & INTEGRITY HONOR CODE

The faculty, administration, and staff reinforce academic honesty and principles of academic honor. Independent learning is vital to the requirements of honesty and integrity in the performance of academic assignments, both in the classroom and outside. Students should avoid academic dishonesty in all of its forms, including plagiarism, cheating, and other forms of academic misconduct. The University reserves the right to determine what constitutes a violation of academic honesty and integrity.

ATTENDANCE

Students are expected to attend each class section. If you cannot attend a class due to a valid reason, please notify the instructor prior to the class. If you miss a class, you are responsible for getting notes on the material covered from a classmate or the instructor.

¹ Detailed description of learning outcomes and information about the assessment procedure are available at the Center for Teaching and Learning website (ctl.lincolnuca.edu).

CLASSROOM POLICY

- Participate. What you put into the class will determine what you get out of it and what others get out of it.
- Ask questions right away during the class if anything is not clear.
- Please come <u>on time</u>. Late arrivals are not tolerated. Attendance will be taken each class at a time chosen by the instructor.
- Students are to remain in class during the entire session except for breaks. Students are not allowed to come and go during class session.
- To avoid distracting noise in class, cellular phones <u>must</u> be turned off or the ringing mode silenced.
- <u>Cell phones are not to be used in the classroom during instructional time.</u>
- You can use a computer in class <u>only</u> to take notes, to access course materials from the course webpage, or to locate information relevant to the class discussion.
- All class participants are expected to exhibit respectful behaviors to other students and the instructor. Inappropriate or disruptive behavior will not be tolerated, nor will be lewd of foul language.
- Students engaging in disruptive behavior in class will be asked to leave and may be subject to other penalties if the behavior continues.
- No eating is permitted during lecture.
- Do everything reasonable to make our class better organized and efficient.
- Instructor may dismiss a student from the course after missing 3 consecutive class meetings.

REQUIREMENTS

Continuous assessment is emphasized. Written quizzes will be given every class session. Problem solving homework assignments will be given every week. Students must complete all home tasks, other assignments, and take all quizzes, and midterm and final exams on the dates due.

Zero tolerance to plagiarism and cheating is enforced. Plagiarism or cheating will result in grade "F" (with zero points) and a report to the administration.

ASSIGNMENTS

Most assignments will be from the textbook. Each assignment is due at the beginning of the following class. Quizzes will take place at the beginning of each class, after collecting assignments and answering questions. Quizzes are designed to last 15 minutes and are based on the material from homework assignments.

EXAMS

Midterm and Final Exams consist of problem solving.

The exams will cover all assigned chapters, any additional readings or supplementary materials covered in class.

The exams are "open book" and "open notes". Using of electronic devices is not allowed. Simple calculators will be provided.

GRADING POLICY

All activities will be graded according to the points as shown below:

Grade	А	A-	B+	В	B-	C+	С	C-	D+	D	F
Points	93-100	90-92	87-89	83-86	80-82	77-79	73-76	70-72	67-69	60-66	0-59

The exam grade will be given as the percentage points of the correct answers.

The final grade for the course will be given as the total weighted score for all activities according to the percentage shown in the table below:

Activity	Percent
Homework Assignments and Class Activity	18%
Quizzes	2%
Midterm exam	35%
Final exam	45%
Total	100%

MAKE-UP WORK

Assignments are to be completed on time during the course. Late assignments will result in a reduced grade. Midterm and Final exams cannot be made up if missed unless there is a documented emergency.

COURSE SCHEDULE

	Date	Торіс	Chapters
1	Aug. 22	Diagnostic Test. Algebra review.	
2	Aug. 29	Linear Functions	Ch. 1
3	Sep. 12	Systems of Linear Equations and Matrices	Ch. 2
4	Sep. 19	Matrices. Solutions of linear systems	Ch. 2
5	Sep. 26	Linear programming: The Graphical Method	Ch. 3
6	Oct. 3	Mathematics of Finance	Ch. 5
7	Oct. 10	Logic	Ch. 6
8	Oct. 17	Midterm Exam	Ch. 1-3, 5-6
9	Oct. 24	Sets and Probability	Ch. 7
10	Oct. 31	Counting principles. Binomial probability.	Ch. 8
11	Nov. 7	Nonlinear Functions	Ch. 10
12	Nov. 14	Limits, continuity, derivatives	Ch. 11
13	Nov. 21	Graphs and the Derivatives	Ch. 13
14	Nov. 30	Review	
15	Dec. 5	Final Exam	

MODIFICATION OF THE SYLLABUS

The instructor reserves the right to modify this syllabus at any time during the semester. Announcements of any changes will be made in a classroom.
