ATTENDANCE:

BA301 is an online course. However, students are expected to attend each class session. If you cannot attend class due to a valid reason, please notify the instructor prior to the class.

EXAMS:

Assignments, midterm, and final examinations consist of theoretical and empirical questions and are structured in a form of written essays or analytical solutions that provide concise answers to mathematical problems. Each exam would include four questions. The essays must be written clearly and easy to read, structurally with a clear logical presentation of the answers. Graphs, charts, tables, and other supporting illustrations are required if needed. Examples to illustrate the answers are required. The exams are neither “open book” nor “open notes.” The final exam is comprehensive. Cheating in exam results in immediate termination of the exam, grade “F” with ZERO points, and report to the Dean of Business Studies.

GRADING:

All activities will be graded according to the points as shown below.

Grade	A	A-	B+	B	B-	C+	C	C-	D+	D	F
Points	93-100	90-92	87-89	83-86	80-82	77-79	73-76	70-72	67-69	60-66	0-59

In exams, every answer is graded by points from 0 to 100 and the total points for an exam are calculated as the average of the points received for all answers in the exam. The final grade for the course will be given as the total weighted score for all activities according to the percentage shown in the table below.

Activity	Time	Percent
Assignments and Quizzes	Every week	20%
Mid-term exam	In the middle of the course	30%
Final exam	Last week of the course	50%

If both grades for the midterm and final exams are “F” the term grade for the course is “F” regardless of the grades for other activities.

NO MAKE-UP WORK:

Assignments are to be completed on time during the course. Late assignments will result in a reduced grade. Mid-term and final examinations cannot be made up if missed unless there is a documented emergency.
