Everyone is to participate in the development of the project plan. Everyone is to participate in the written and oral presentation of the plan. Each team will have 5 minutes for each member of the team for the oral presentation. e.g. 5 team members would have 25 minutes for their presentation. Any member not actively working with their team on the project is to be reported to the instructor. This is a group project requiring group participation.

The focus of the project is that the team has developed a new product that it believes can be successful in making money. The team is to develop a marketing plan of action. Products the team can select from are:

BIBLIOGRAPHY

In addition to the text used for this course, it may help the students to expand their interest and knowledge in the subject by reading material in other publications and texts. Recommended reading includes:

The Wall Street Journal

Forbes

San Francisco Business Times

Business Week

Integrated Marketing Communications, Belch & Belch; Irwin. 2002

Services Marketing, Lovelock; Prentice Hall, Inc. 1991. Second Edition.

The Power of Logos, Haig, John Wiley & Sons; 1997

EXPECTATIONS

The textbook does a good job of explaining the basic marketing principles and concepts as well as introducing you to the vocabulary of the business. I will devote class time to discussing these concepts and how they apply to the marketing operations of a company. We will discuss the application of marketing theory to real life situations drawn from my professional experience. I want you to share your own experiences - or if you have limited work experience, to ask questions. We will have video tapes and class exercises.

My expectation is that you will prepare yourself for each class session by studying the material assigned, that you will think about the application of what you are studying to the job of a marketing manager, and that you will discuss your thoughts during class.

Americans consider time differently than people from other countries. Americans actually think of time as a tangible asset. We say "Don't waste time." We talk about saving time.

Because of this it is considered rude and is unacceptable to be late for a business meeting. The same applies to classes. We will conduct this class with the same respect for time. It is considered rude to your classmates and instructor to be late for class.

EVALUATION

Grades will be based on the quality of reports, project, examination, and classroom participation. Attendance is important. Classroom participation is not possible if you are not in class. Participation is defined as actively adding to a discussion by offering insights or different approaches to marketing problems/solutions that demonstrate a solid working knowledge of the concepts and principles of marketing. Grades will be based on:

- | | |
|---------------------------|-----|
| • Exams | 50% |
| • Project assignments | 10% |
| • Classroom participation | 15% |
| • Individual assignments | 5% |
| • Marketing project | 20% |

MAKE-UP WORK

Assignments are to be on time. Late assignments will be reduced one grade. Mid-term exam, final exam, and group presentation can not be made up if missed – unless there is an emergency.
