Course Title	Project Management	Instructor: Walter Kruz
Course No.	BA 305	Contact: wrkruz@lincolnuca.edu
Units	3 (45 lecture hours)	Office Hours: Sat 12-12:30PM
Class Hours	Sat 09:00-11:45AM	
Semester	Spring 2012	

Textbook:

Project Management by Clifford Gray and Erik Larson. 4th edition, ISBN 978-0-07-352515-0

Course Description:

The objective of this course is to prepare the graduate student for managing projects undertaken by an organization. The course will cover concepts and skills used by managers to propose, plan, secure resources, budget, and lead project teams to successful completion of their projects. It will provide the graduate student with a holistic, integrative view of project management that describes how projects contribute to the strategic goals of the organization.

Learning Objectives:

By completing the course, students will achieve a basic understanding of the knowledge necessary to manage projects in a business environment. In addition, students will be prepared to take the Project Management Institute (PMI) test leading to a Project Management Professional (PMP) certification.

Methodology:

This is a highly interactive learning environment. All students will participate in class discussions, research findings, and class exercises. Short oral presentations may also be assigned. Assignments will be given weekly and may consist of textbook exercises and research questions. Attendance is highly encouraged as exams include questions from class discussions.

Students will benefit from using a laptop and calculator although these devices are not allowed during exams.

Standards:

Standards for this class are similar to those found in professional organizations. All assignments are due on the date indicated and collected during the first 10 minutes of the class. Late assignments will not be collected or graded. Make-up exams are allowed only due to a documented medical excuse. Students are encouraged to study and work in groups for enhanced learning.

Project:

Project work is designed to familiarize students with the practices necessary to create and manage industry projects. Projects may be assigned individually or as a group. If as a group, grade is the same for all members. Drafts may be evaluated on an agreed upon schedule during the semester. Final deliverable will be turned in as a hard copy. Plagiarism is not allowed; all sources must be referenced.

Testing:

Typically, the class will consist of two or three exams of equal weight as well as homework and quizzes throughout the semester. All exams are individual deliverables. They consist of short answers related to the material being discussed and some mathematical problems. The exam format is usually closed book with no electronic devices allowed.

Grading:

Quizzes, homework assignments, exams, and the project allow students to accumulate points throughout the semester. These are added and compared against the total possible as a percentage. A final grade is then assigned as follows:

95—100%	A
90—94%	A-
87—89%	B+
84—86%	B
80—83%	B-
76—79%	C+
70—75%	C
66—69%	C-
Less than 66%	D

Exams and Project are typically worth 100 pts each. Homework and quizzes from 5-10 pts.

Classroom Protocol:

Classroom protocol is similar to the one students will find in a professional environment. Students are expected to arrive on time and be prepared to participate. Laptop use is allowed only for a class purpose. No cell phones allowed.

Schedule:

This is a proposed schedule. It may change according to class progress or student interests.

Wk 1	Chapter 1 Modern project management	Lecture, exercises
Wk 2	Chapter 2 Organization strategy	Lecture, exercises, Project research
Wk 3	Chapter 3 Structure and culture	Lecture, exercises, Project research
Wk 4	Chapter 4 Defining the project	Lecture, exercises, Project research
Wk 5	Review	Exam #1
Wk 6	Chapter 5 Estimating times and costs	Lecture, exercises, Project research
Wk 7	Chapter 6 Developing a project plan	Lecture, exercises, Project research
Wk 8	Chapter 7 Managing risk	Lecture, exercises, Project research
Wk 9	Review	Exam #2
Wk 10	Chapter 8 Scheduling Resources	Lecture, exercises, Project research
Wk 11	Chapter 9 Reducing time	Lecture, exercises, Project research
Wk 12	Chapter 10 & 11 Leadership & Teams	Lecture, exercises, Project research
Wk 13	Chapter 12 & 13 Outsourcing & Metrics	Lecture, exercises, Project research
Wk 14	Chapter 14 Audit and Closure	Lecture, exercises
Wk 15	Review	Exam #3

Faculty Information:

Professor Kruz is a full-time industry consultant. His expertise includes operations, engineering, and project management in various industries. He actively conducts business research and is a member of various industry organizations.
